

ANUJ DUBEY

B.Tech CSE Student | Forward Deployed Engineer, Forge Web | Full-Stack Software Developer

Faridabad, Haryana, India • anujdubey162005@gmail.com • linkedin.com/in/anuj-dubey-a41767280 • github.com/anuj-cs16

CAREER OBJECTIVE

Third-year B.Tech CSE student with proven hands-on experience building and shipping production web systems, desktop applications, and autonomous AI-assisted tools. Seeking a software development engineer role or internship to leverage strong fundamentals in MERN stack, Python, algorithmic engineering, and agentic workflows.

EXPERIENCE

Forward Deployed Engineer — Forge Web

Feb 2024 — Present

Web Development & Automation Business, Faridabad, Haryana

- Embedded directly on-site with 6+ business clients to gather technical requirements, architect custom MERN stack solutions, and execute production launches with zero downtime.
- Engineered custom WhatsApp API automation systems and lead generation web portals, significantly increasing client operational throughput and user conversion.
- Managed end-to-end SDLC — from rapid prototyping and relational schema design to cloud deployment pipelines and live client support.

Full-Stack Web Developer — Freelance & Client Servicing

2023 — Present

Remote / Hybrid

- Developed end-to-end full-stack applications with React, Node.js, Express, and MongoDB for client organizations.
- Built automated email notification triggers, RESTful APIs, and secure payment integrations.
- Optimized site rendering speed, database queries, and responsiveness for seamless user experience.

PROJECTS

NEXUS — Autonomous Local-First AI Software Engineer

Tauri v2, Next.js 15, FastAPI, Python, Ollama, SQLite-vec, Docker

- Architected an autonomous, local-first AI software engineer desktop peer that executes planning, AST parsing, test execution, Docker sandboxing, and code review directly on workstations.
- Integrated Ollama local LLMs (Qwen 2.5 Coder, Llama 3.3) with async DAG workflow orchestration and vector search.

URL Shortener & Analytics Platform

Node.js, Express, React, MongoDB, Tailwind CSS

- Engineered a link shortening platform featuring custom alias routing, real-time redirection click analytics (referrer/device breakdowns), and automated QR code generation.

Blood-Donation Camp Management System

React, Node.js, Express, MongoDB, Tailwind CSS

- Built a full-stack platform for organizing blood donation drives, managing donor registrations, camp scheduling, and real-time inventory coordination.

Pokémon-Journey

JavaScript, HTML5 Canvas, Web Audio API, CSS3

- Created an interactive browser RPG featuring animated tile movement, wild creature encounters, turn-based battle mechanics, and dynamic sound effects.

ERP Portal

Node.js, Express, EJS, MongoDB, Bootstrap

- Built an enterprise resource planning portal implementing Role-Based Access Control (RBAC), attendance logs, inventory management, student metrics, and PDF invoice generation.

Employee Management App

JavaScript, HTML5, Tailwind CSS, LocalStorage

- Single-page application for tracking employee profiles, departmental hierarchies, payroll breakdown, attendance status, and performance reports.

Library Management System

Python, Tkinter, MySQL, Pillow

- Desktop GUI application for managing library inventory, book issuing/returns, member tracking, fine calculations, and database backups.

Python Course & Automation Suite

Python, OOP, Data Structures, Automation

- Comprehensive repository of 50+ modular Python algorithms, data structures, automation scripts, scrapers, and GUI utility tools.

TECHNICAL SKILLS

Programming Languages:	Python, JavaScript, Core Java, SQL, C/C++
Web & Frontend:	React, Next.js, HTML5, CSS3, Tailwind CSS, EJS, Bootstrap
Backend & APIs:	Node.js, Express.js, FastAPI, RESTful APIs, JWT Authentication
Databases:	MongoDB, MySQL, SQLite, Vector Databases (sqlite-vec)
Developer Tools:	Git, GitHub, Docker, Tauri v2, Postman, Linux/Bash, VS Code
AI & Engineering:	Ollama, FastEmbed, Antigravity, Claude Opus, Prompt Engineering, Agentic Workflows

CERTIFICATIONS

- **Core Java (8-Week Training)** — Internshala Trainings; covered Java fundamentals, OOP, database handling, GUI programming, and Java + AI modules (2025).

ACHIEVEMENTS

- **Winner of 10 Hackathons** (15+ participated), including 1 at the national level.
- **Winner, Smart India Hackathon (SIH)** — Internal University Round.
- **Hackathon Coordinator** — Organized university-wide technical hackathons, managing logistics, problem statements, and mentoring participants.

EDUCATION

Aravali College of Engineering and Management, Faridabad, Haryana <i>Bachelor of Technology (B.Tech), Computer Science & Engineering — 3rd Year Completed</i>	2022 — 2026
